

# PACKAGING SYMBOLS

## KNOW YOUR PACKAGING SYMBOLS!

You might have observed an increase in symbols displayed on product packaging and in this catalogue. Understanding their significance is crucial to make informed purchasing decisions and dispose of the packaging responsibly. Below, you'll find a list of frequently encountered symbols and their meanings, specifically for the products featured in this catalogue.

### DISPOSAL

---

#### COMPOSTABLE

You can compost this packaging in either a home or industrial compost. It will degrade within 180 days in an industrial compost and within 365 days in a home compost.

#### RECYCLABLE

You can recycle this packaging in your home recycling bin. Clean off any food, grease, oil or other mess before placing it in the bin.

### FEATURES

---

#### CUSTOMISABLE

This symbol indicates that our design team can customise the product to add your custom branding or create a unique solution just for you.

#### HOT OR COLD USE

Packaging with this symbol is ideal for hot or cold food. At Bygreen, this packaging is strong, dependable and greaseproof.

### MATERIALS

---

#### RESPONSIBLY SOURCED PAPER & WOOD FSC® CERTIFIED

These wood or paper-based products are made from materials sourced from FSC® Certified companies that use sustainable practices to help protect our forests.

#### MICROWAVE & OVEN SAFE

This packaging can be used safely in a microwave or an oven. \*Palm Leaf Products - within limitations - Microwaveable up to 2 min on high. In a convection oven at 180° for up to 40 min.

#### FREEZER SAFE

You can use this packaging safely in the freezer. However, you should test the packaging first to ensure the type of food you're freezing doesn't affect the structural integrity of the packaging once it's thawed.
